

“Biography” – After growing up in the American Military and finishing his undergraduate degree, Anthon Petty joined the U.S. Foreign Service as a Foreign Service Facility Manager in 2013. Anthon served as post’s Facility Manager in Jeddah, Baku, Abu Dhabi, and now as a Regional Facility Manager in Frankfurt within the OBO Regional Support Center. Anthon has previously served on Employee Association boards as both Treasurer and President while in Baku, Azerbaijan. Anthon enjoys riding bicycles, spending time with his spouse and children, and weekends outside the city in the larger Rhein-Main area.

“Why I Want to Join the CSA Board” – Strongly believing in the positive impact employee associations can have within the Diplomatic Community, I seek board member appointment within Frankfurt’s CSA. During my tour in Baku (2016-20218), as both Employee Association Treasurer and President (each one year terms), our Board’s attention to fiscal details saved the association and while continuing key quality-of-life services to our Embassy community. The implementation of a new Point-of-Sale terminal and inventory management also prevented the loss of important revenue and valuable inventory. Over my eleven-year career with the Department of State, Employee Associations have been important for my family and me and I hope to allow Frankfurt’s to thrive and support our American and Local Staff employees and their families. I look forward to serving you as a CSA Board Member.

Kind Regards,
Anthon W. Petty
